

## GP Information Sheet

St George Division of General Practice

# St George Division of General Practice Women's Health Clinic

## Referral criteria

**Target Group** - the clinic will be targeting the following group(s)

1. Women living in the Rockdale and Kogarah LGAs
2. Women up to 69 years of age
3. Women from a culturally and linguistically diverse (CALD) background
4. Women who may be unscreened or under screened for cervical cancer

## Procedures

1. Please complete a referral form and fax to the Division on 9585-2144 (women will not be accepted without a referral from their GP)
2. The Division staff will call your patient to organise an appointment and an interpreter if required.
3. All pathology results will be sent to you directly from Douglass Hanly Moir for follow-up
4. The Nurse will perform
  - A Pap smear
  - A breast check when appropriate in line with current Family Planning NSW breast check protocols i.e. at the woman's request, if the woman has symptoms or if the woman is over 50 and not having regular mammographic screening
  - A pelvic floor assessment
  - Opportunistic swabs if clinically indicated
  - If appropriate, opportunistic screening for STIs
  - Issues that may be discussed include
    - ◆ Breast awareness
    - ◆ HPV vaccination (Gardasil® or Cervarix®)
5. Your patient will be returned to you for follow-up.
